**HIGHLAND FORWARDING, INC. TO CELEBRATE GRAND OPENING AT ITS NEW 36,000 SQ. FT. FACILITY IN LONDONDERRY**

(Londonderry, NH) – Highland Forwarding, Inc. (Highland Forwarding), is excited to announce the grand opening of their Londonderry, NH location with a kick-off celebration and open house starting at 11 AM on Tuesday, June 30, 2015 outside their newly constructed building located at 6A Kitty Hawk Landing.

The event will pay tribute to the company's multiculturalism with a ceremonial raising of flags, which will have the national anthems of Brazil, the Czech Republic, France, India, Philippines, Russia, Poland, Slovakia, Spain, Switzerland, Turkmenistan, Ukraine, the USA and Zambia played in recognition of their many international employees. All local businesses and the media are welcome to attend.

The celebration is the culmination of three years of tireless work to build what Highland Forwarding has named the Falling Water Office Park. Creation of this 36,000 sq. ft. building, which sits on 15 acres of land just off Kitty Hawk Landing, broke ground in 2012 and required that nearly 200,000 cubic yards of solid granite be removed—all of which was later used for the reconstruction of the Exit 5 Route 28 interchange. This feat, among many others, led to an architecturally-outstanding three-floor office and warehouse facility. Over the next 5-10 years, Highland Forwarding anticipates using the building to expand their workforce up to 100 employees.

Highland Forwarding was started in 1998 by Radek Maly, a refugee and immigrant from the Czech Republic, and has grown to become the single largest international logistics provider in New Hampshire. Highland Forwarding continues to prosper, and has been named to the Inc. 5000 Fastest Growing Companies in America list seven times. The new building will support Highland Forwarding's continued growth, as well as serve as a magnet for the further development of international trade in NH.

"The building of Falling Water Office Park represents our future, and our vision for New Hampshire's future," says Radek Maly, President of Highland Forwarding. "This is just our first step towards becoming a national and global leader in the import and export industry, and we look forward to building a strong workforce within our state."

**About Highland Forwarding**

Established in 1998, Highland Forwarding provides exceptional international freight forwarding and logistics services for businesses across the US and worldwide. The company specializes in arranging the transportation of overseas shipments by air or ocean. They are also highly experienced in customs clearance and import/export coordination. Highland Forwarding is an FMC licensed freight forwarder, IATA air cargo agent, and US Customs licensed broker.
